## **EXAMINER'S AMENDMENT/COMMENT**

### **Reasons for Allowance**

1. The following is an examiner's statement of reasons for allowance:

The primary reason for the indication of the allowability of claims 1-16 is the inclusion therein of the limitations of determining (1) if an error exist in the home position on the condition that a sum of the first position and the second position is not same as the maximum moving distance of the carriage, or when a second currently-determined position is not same as a second previously-determined position; and (2) if an error does not exist in the home position the condition that: the sum of the first position and the second position is same as the maximum moving distance of the carriage and the second currently-determined position is same as the second previously-determined position. These limitations are neither suggested nor taught by the prior art of record, alone or in combination as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Pertinent Prior art***

2. U.S Patent 6,257,781 to Harris discloses establishing a print head home position and generating the home position error by a position detector. However, Harris does not teach or suggest determining the home position error based on the condition as claimed.
